ABOUT US

From Italian origins, **Globetech** pioneers hydraulic and automation solutions in the Middle East, delivering reliable, efficient, and safe systems for industrial projects.

With over **20 years of expertise**, we turn challenges into opportunities by combining innovative engineering with a steadfast commitment to excellence.

At Globetech, we pride ourselves on building lasting partnerships, approaching every project with **sincerity, wisdom**, and a **client-first mindset** to deliver results that exceed expectations.

MISSION

We ignite **industrial progress** in the Middle East with **innovative** hydraulic and automation solutions.

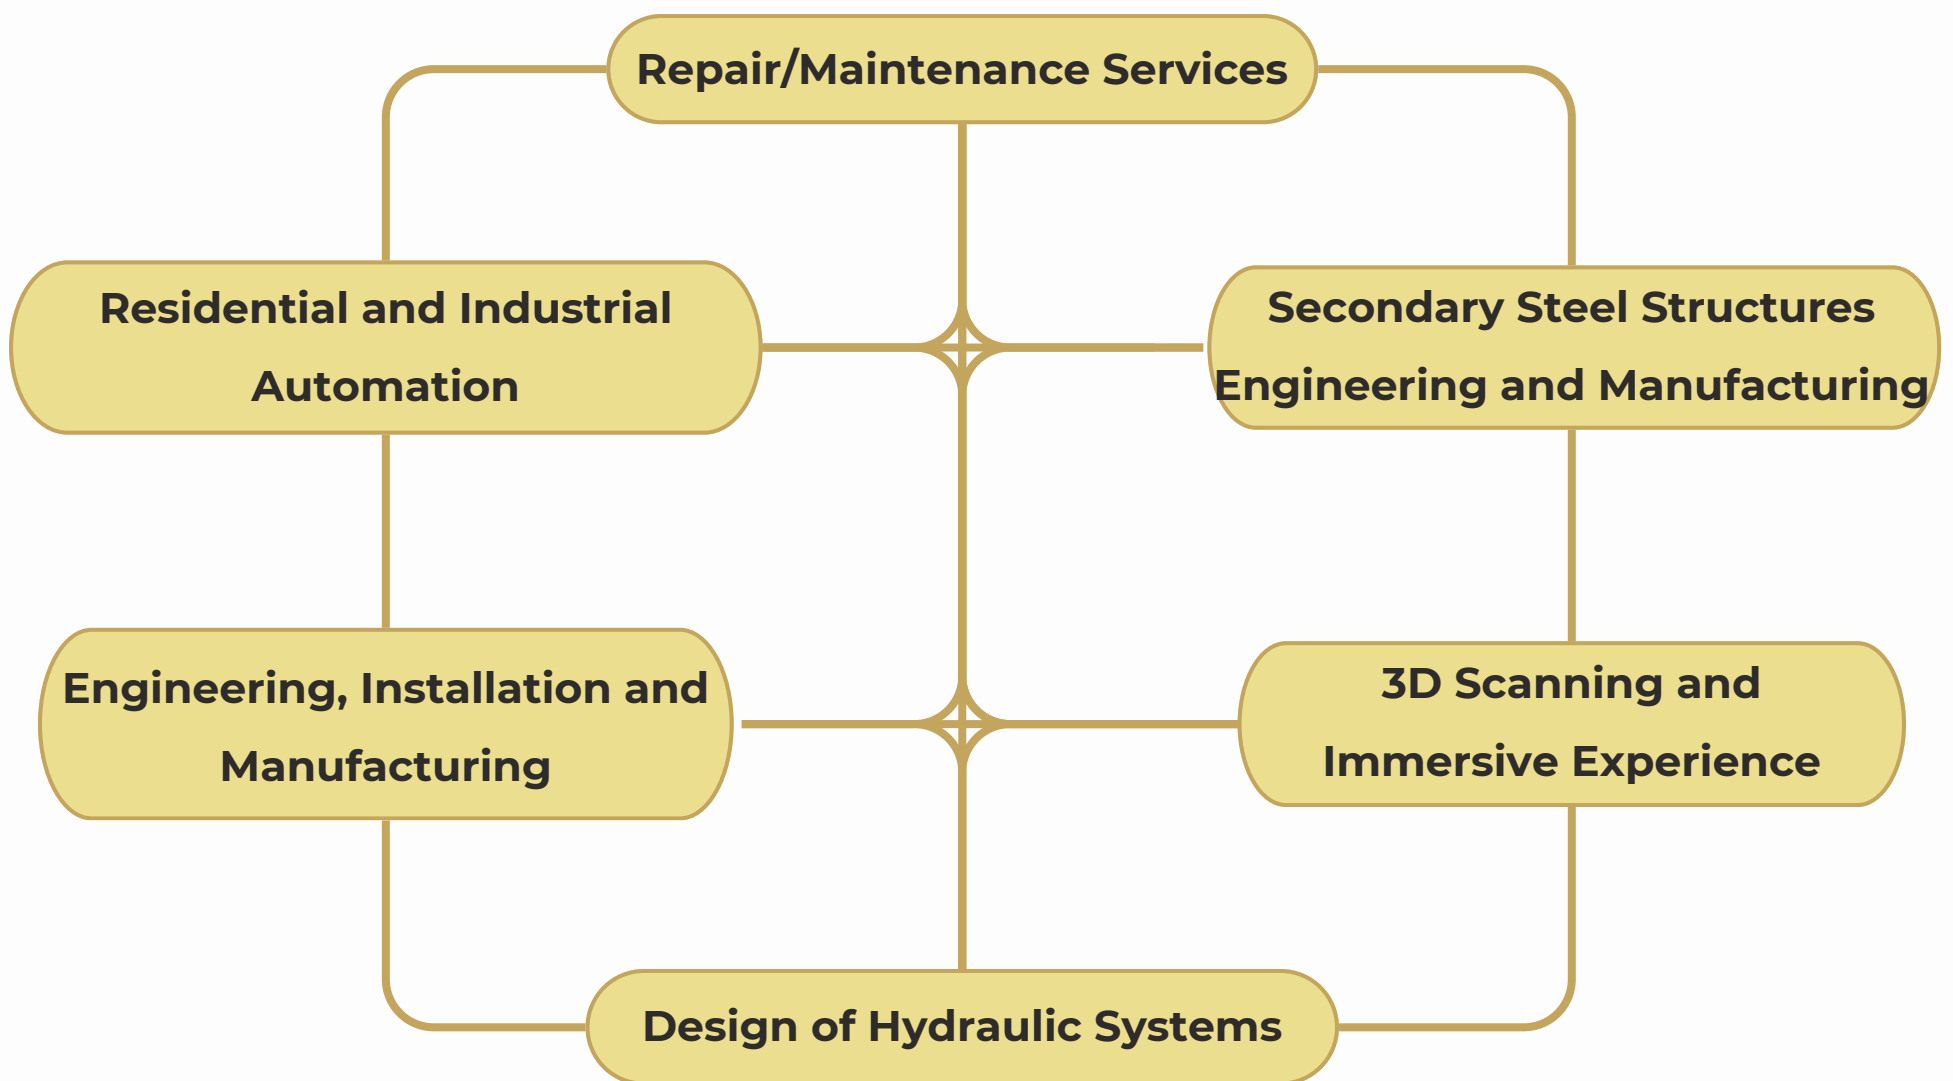

Driven by **passion** and **trust**, we deliver **reliable, high-impact systems** that **empower success** and **inspire** a bold future.

OUR SERVICES

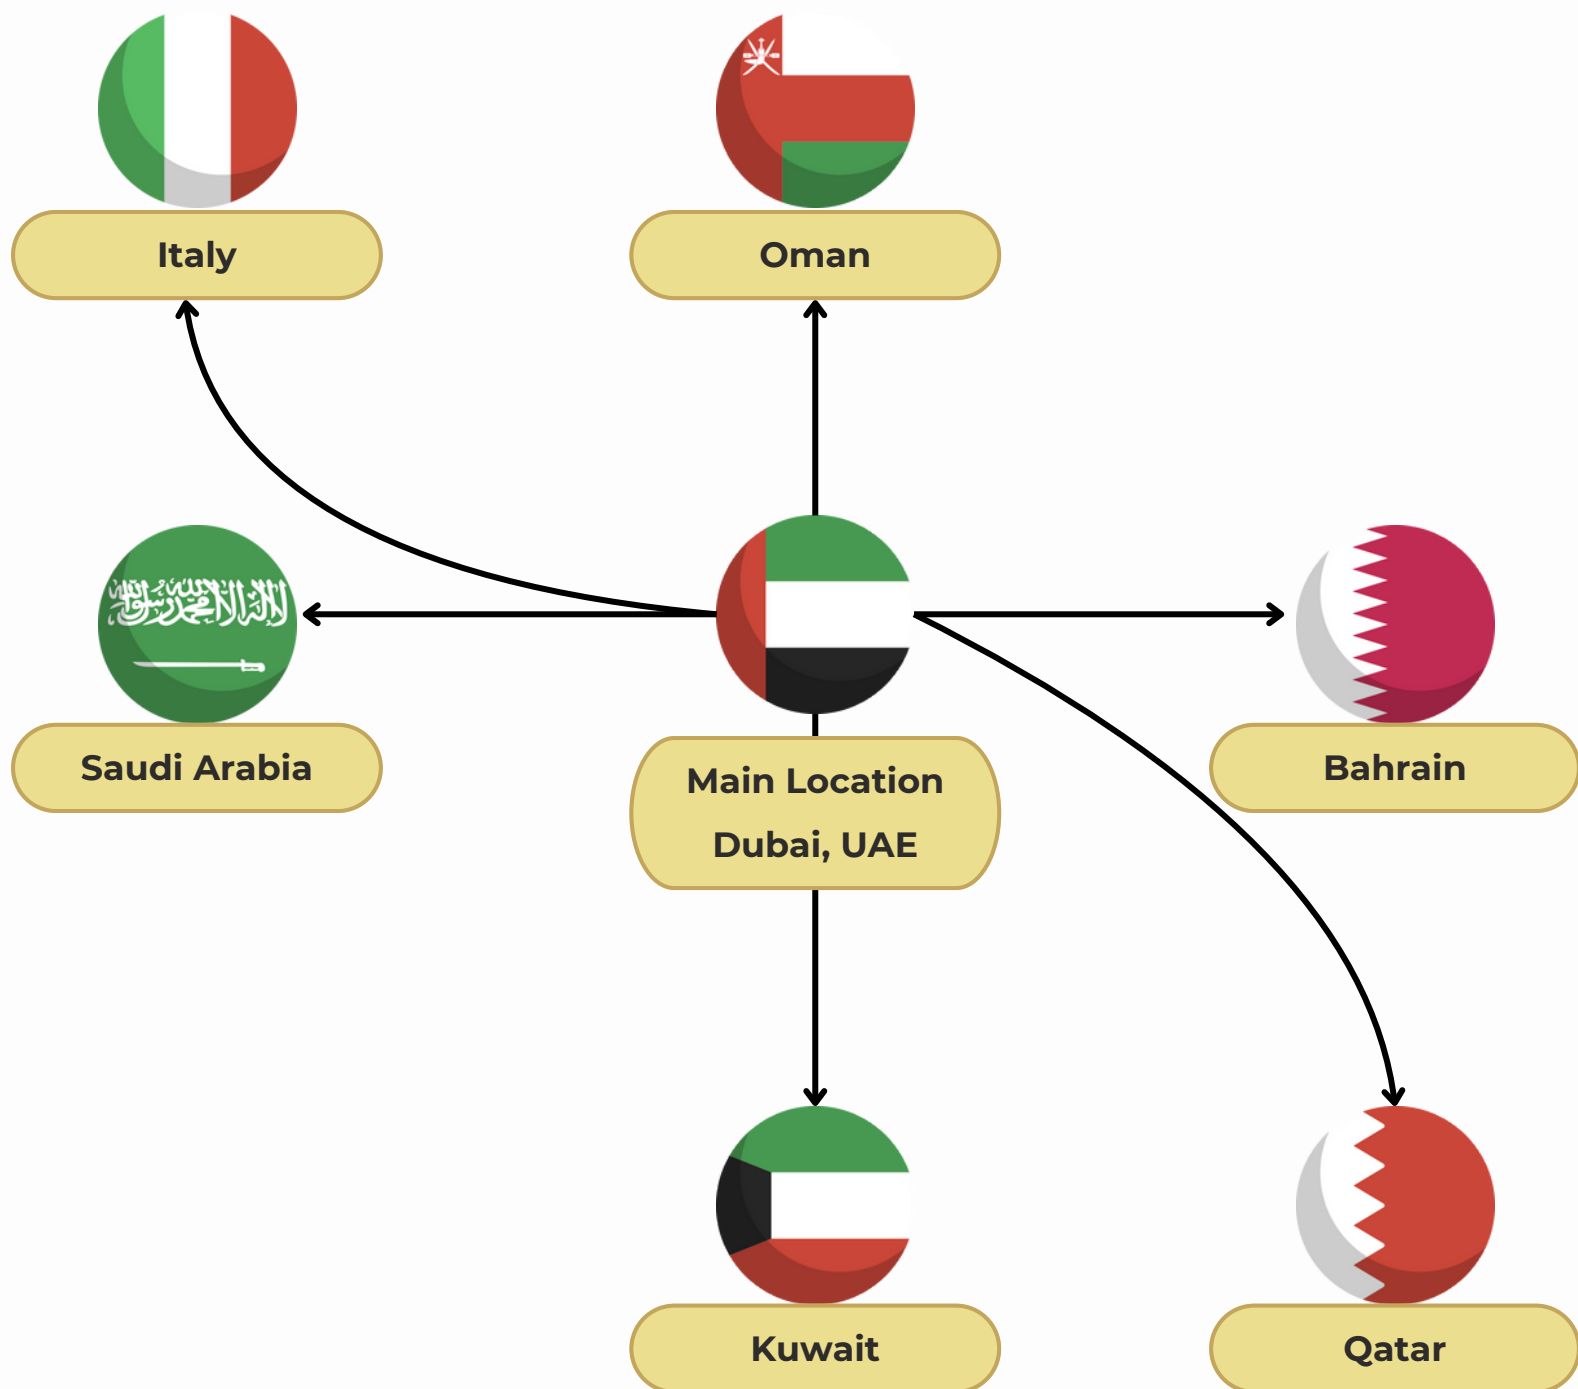

At Globetech we serve critical industries such as **entertainment**, **residential**, **oil and gas** and **manufacturing**, ensuring operational *efficiency*, *safety*, and *precision*.

Committed to excellence, we build lasting partnerships with a client-first approach, empowering businesses to thrive.

OUR REACH

We aim to provide our services and solutions all over the **Middle East** and leverage our **Italian** connections in order to provide the *highest level of quality* to our customers.

PARTNERS

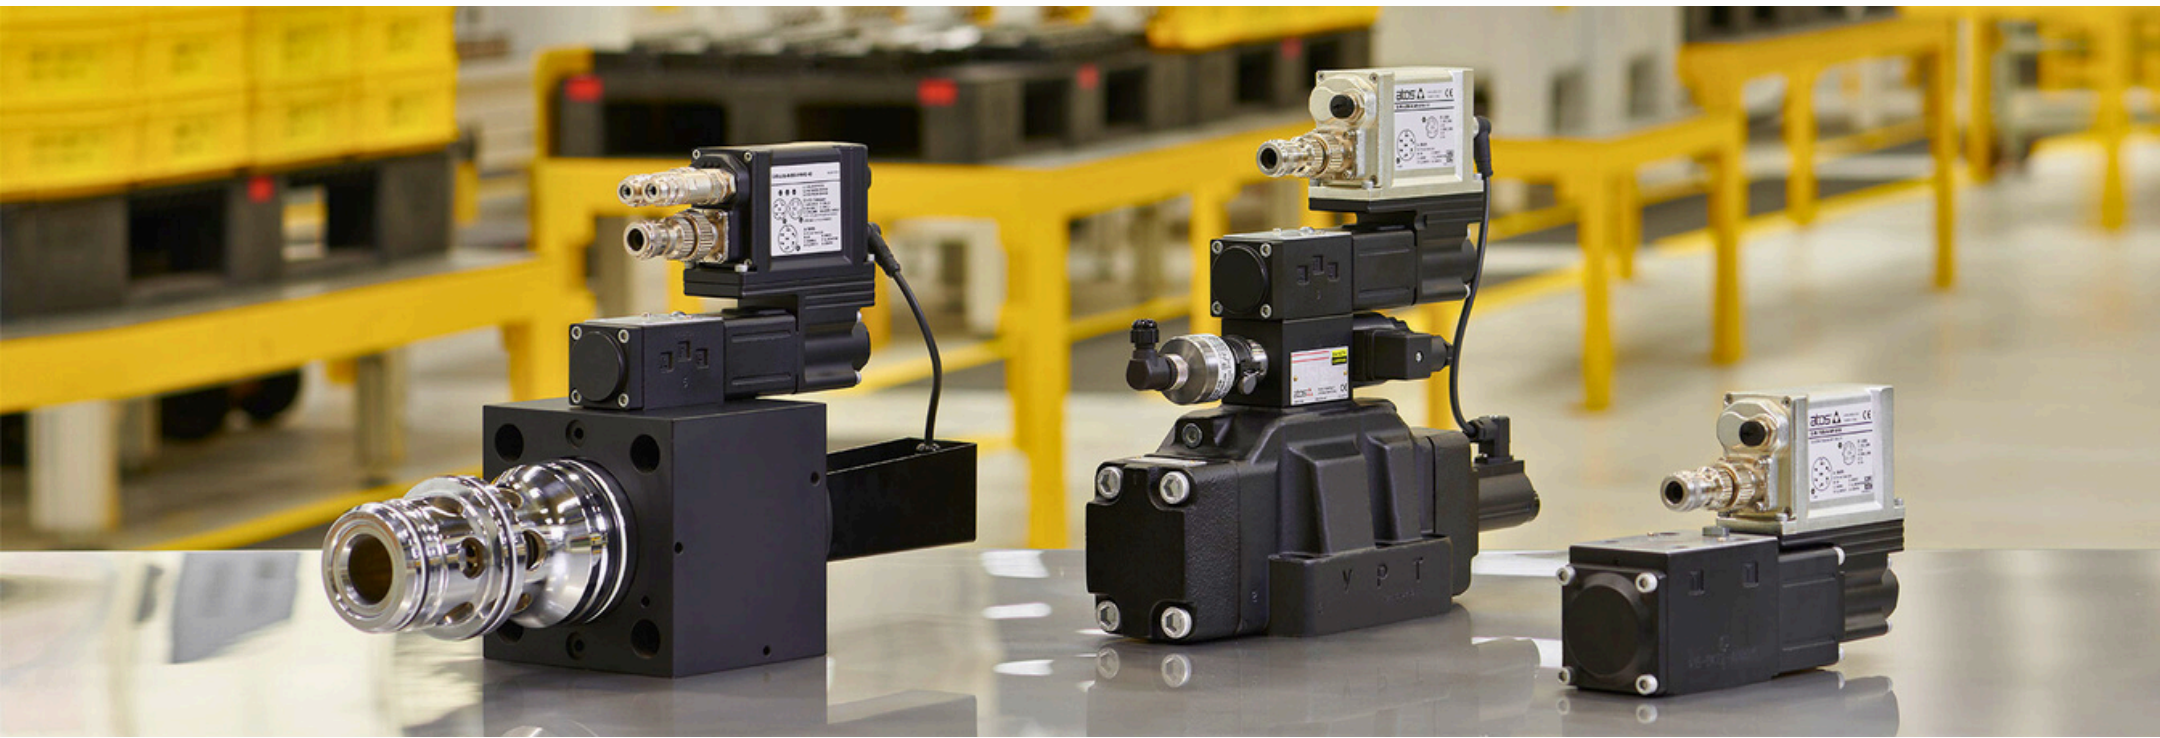

TRADING

We are proud to collaborate with **leading Italian engineering firms**, leveraging their world-renowned expertise in **precision technology** and **innovation**.

These strategic partnerships enhance our ability to deliver **cutting-edge hydraulic and automation solutions** across the **Middle East**.

By combining our regional insights with Italy's legacy of engineering excellence, we ensure our clients receive **state-of-the-art systems** that drive **performance** and **reliability**.

PROJECTS

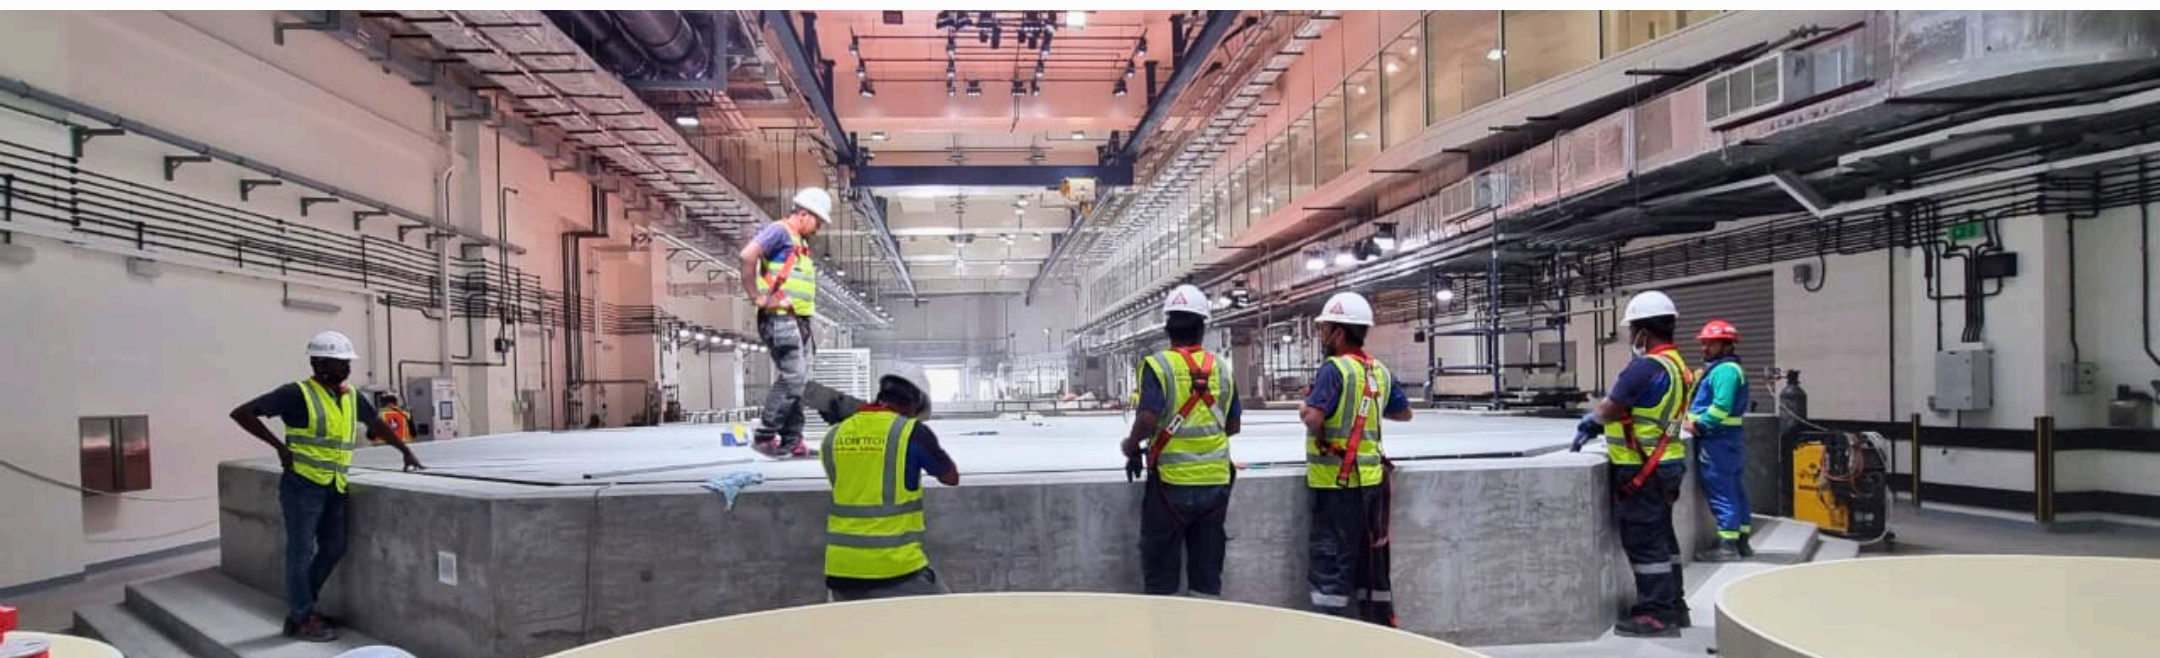

INDUSTRIAL

We deliver innovative **hydraulic and automation solutions** across the Middle East's industrial landscape.

Our expertise spans oil and gas, manufacturing, and entertainment, powering iconic projects like the **UAE Pavilion at Expo 2020 Dubai** and **SeaWorld Abu Dhabi**.

Collaborating with leading Italian partners, we combine precision technology with regional insights to provide reliable, high-performance systems.

Our client-first approach ensures **safety, efficiency, and excellence**, making us a trusted partner for industrial progress.

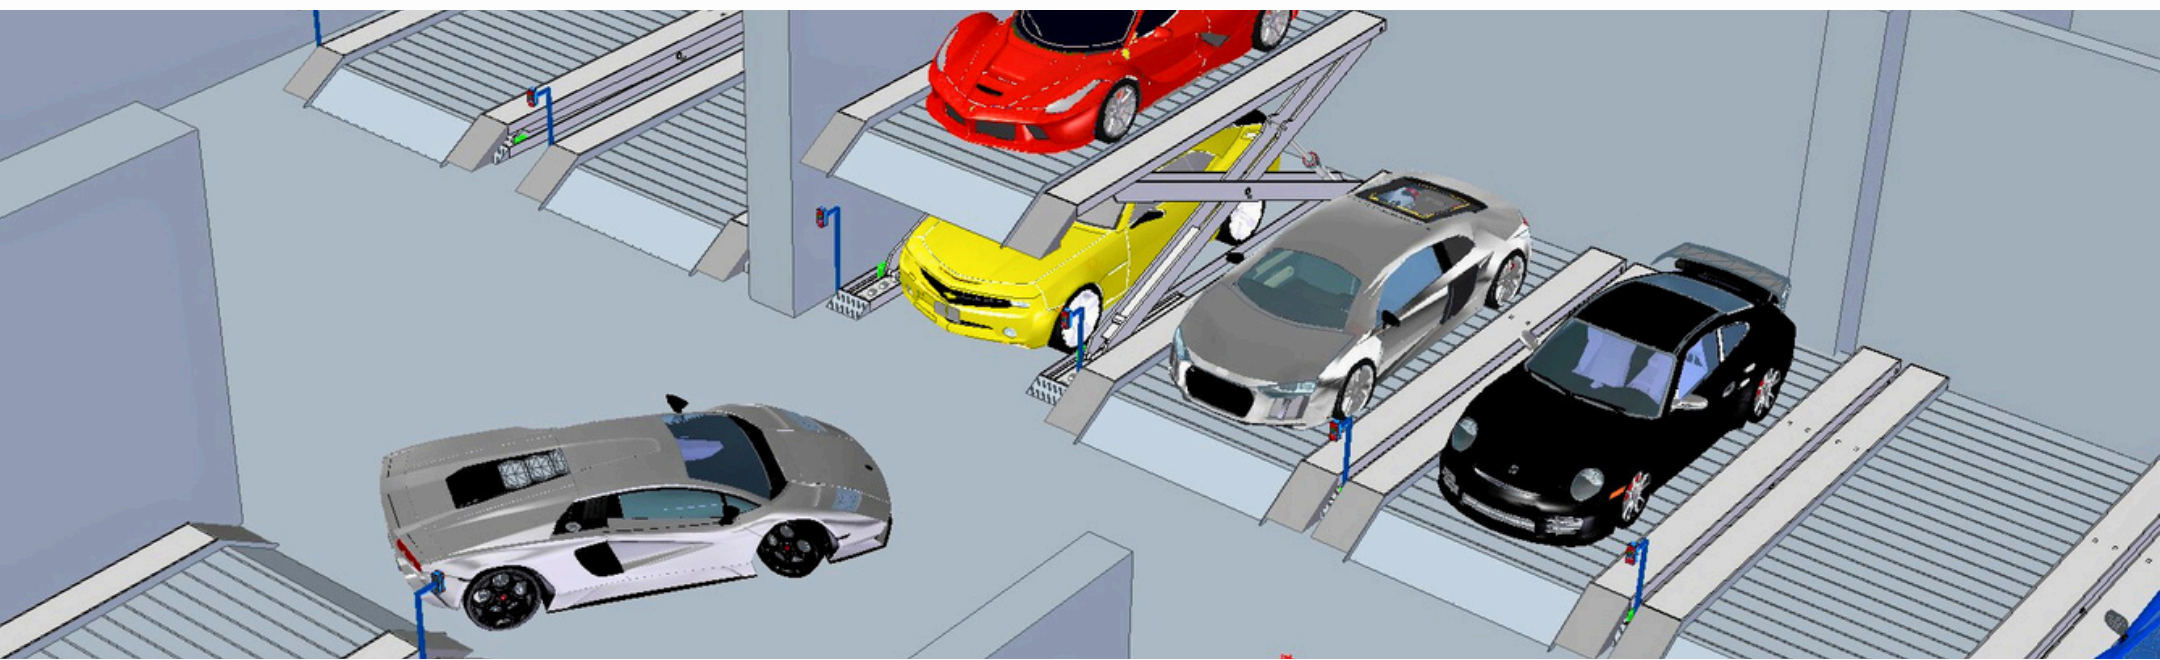

PROJECTS

RESIDENTIAL

We elevate Middle East homes with innovative automation solutions, blending **luxury, functionality,** and **safety.**

Drawing our expertise and Italian engineering partnerships, we deliver bespoke systems like **water flood defenses, automated canopies,** and **transformative pool-to-patio** technologies.

Our cutting-edge **3D scanning services** empower developers and homeowners with precise visualizations, ensuring exceptional living spaces tailored to unique needs.

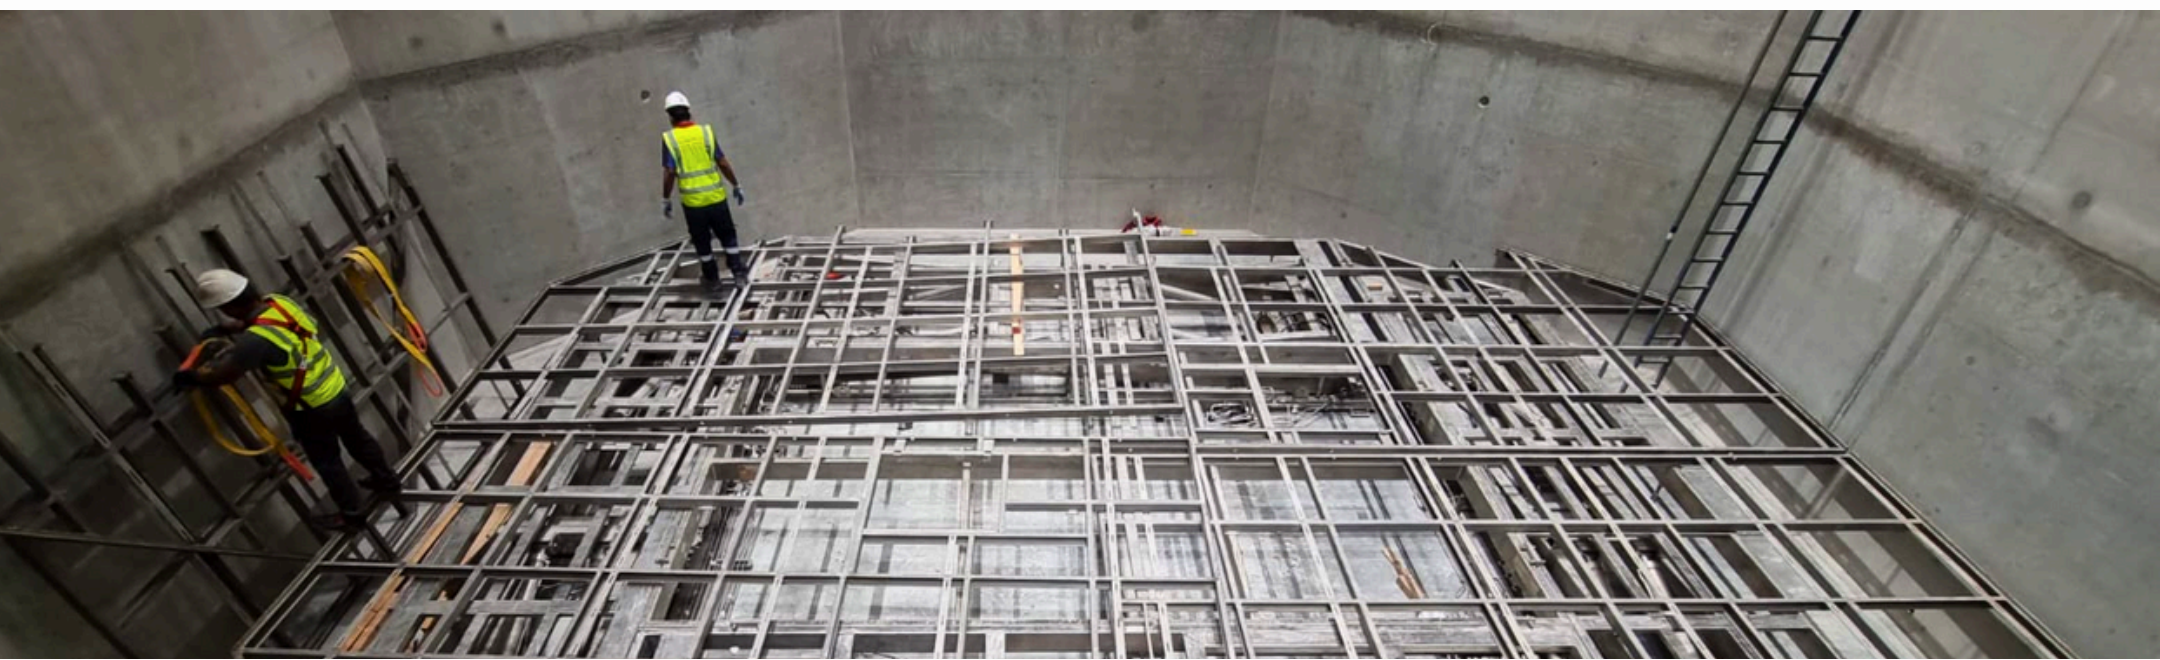

STEEL STRUCTURE MANUFACTURING

We are experts in **stainless steel custom-engineered secondary steel structures** for the Middle East's architectural and industrial projects, delivering components critical to **safety, functionality, and durability**.

Our precision-crafted solutions enhance complex systems across diverse sectors.

Our Steel Structure Services Include:

- Bespoke design and fabrication
- Precision machining and assembly
- Corrosion-resistant material solutions
- On-site installation and testing
- Ongoing maintenance and support

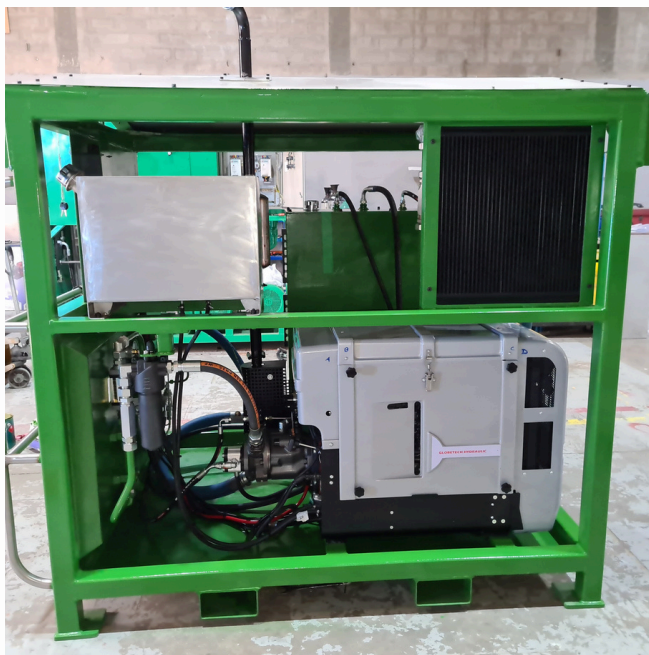

HPU DESIGN

We craft custom **Hydraulic Power Units (HPUs)** for **industrial, marine,** and **infrastructure** applications across the Middle East.

Partnering with Italian engineering experts, we deliver **high-performance powerpacks** featuring precise hydraulic circuits, compact frames, and advanced control systems.

Our HPU Services Include:

- Custom engineering with 3D design
- Expert component selection (pumps, valves, motors)
- Integrated controls (HMI, PLC, sensors)
- Installation, commissioning, and support
- Ongoing maintenance and rapid repairs

CYLINDER

MANUFACTURING & SERVICE

We craft and service **high-performance hydraulic cylinders** for the Middle East's industrial, marine, oil & gas, entertainment, and infrastructure sectors.

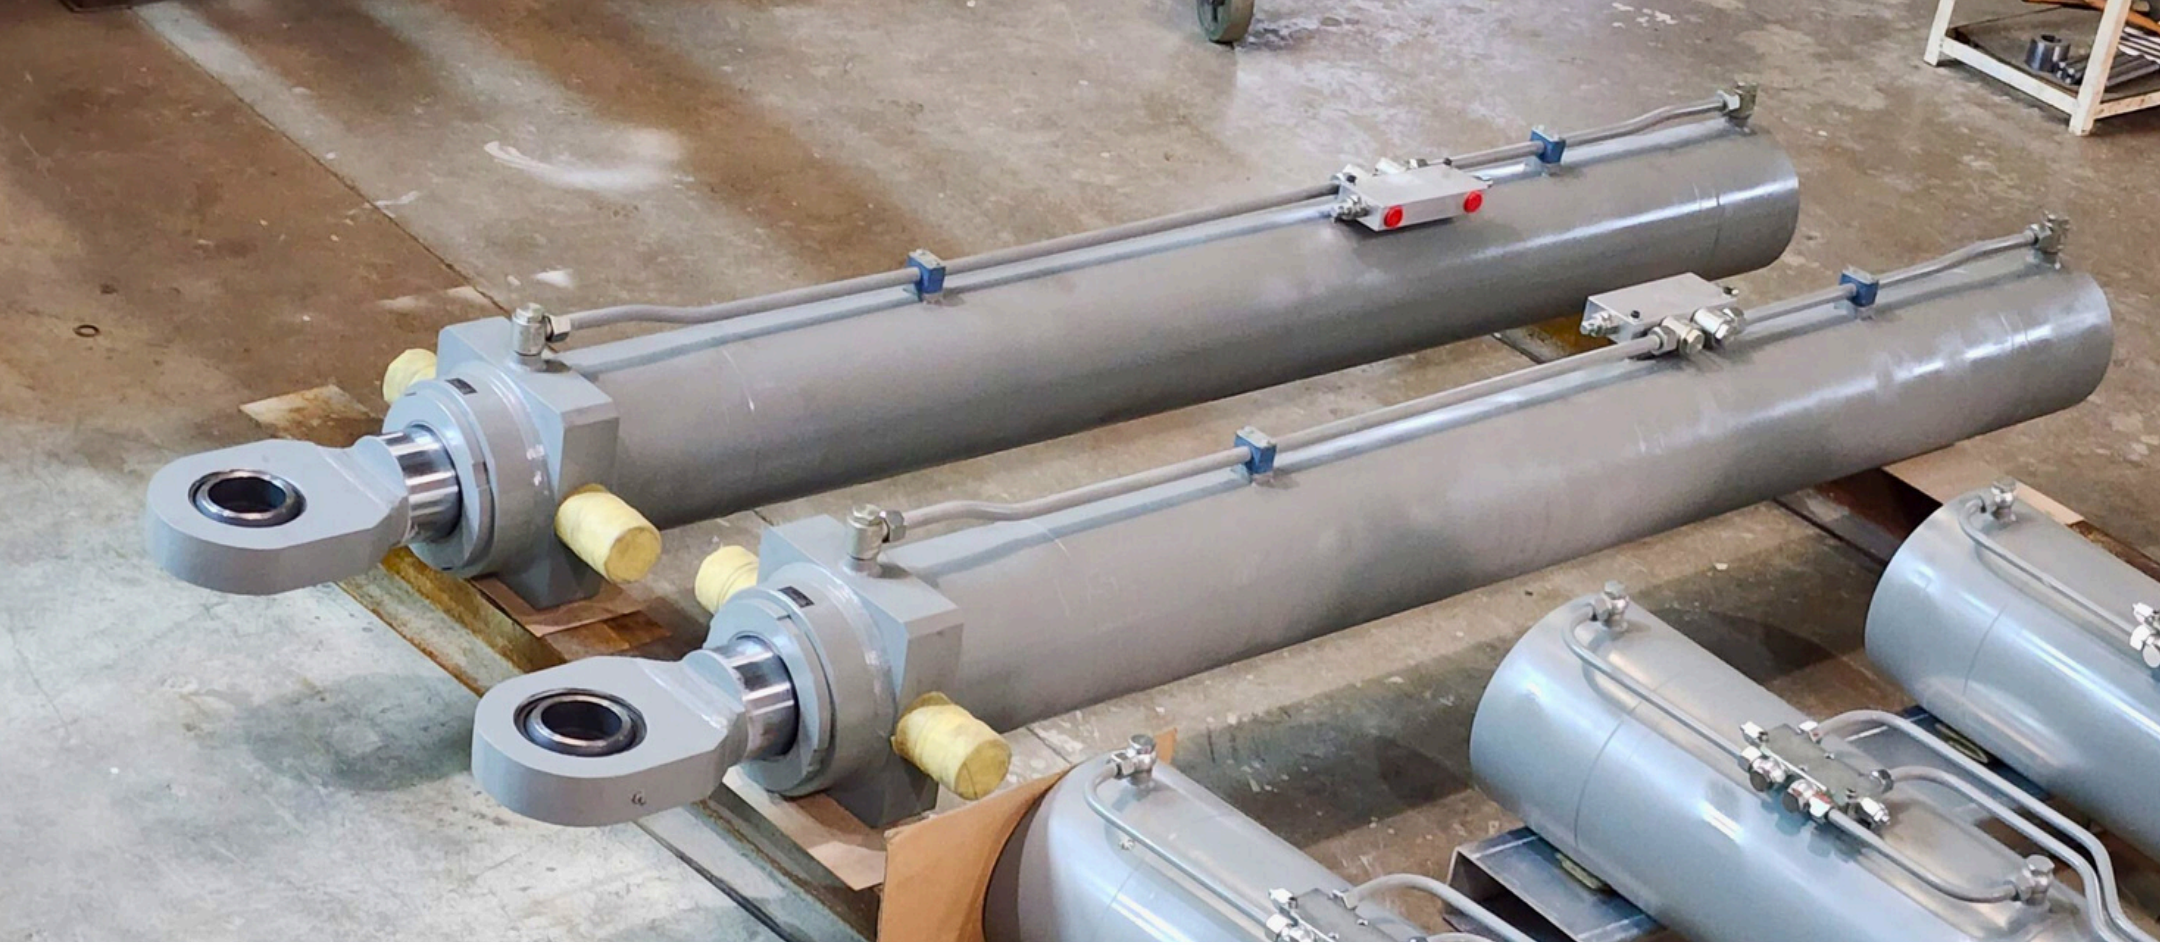

Our custom solutions ensure durability and precision, tailored to meet the toughest operational demands.

Our Cylinder Services Include:

- Precision design and fabrication
- Expert repair and refurbishment
- Routine maintenance programs
- On-site installation and testing
- Rapid response support

Why Choose Us?

- Advanced machining and honing facilities
- Expertise in stainless steel, carbon steel, and specialty alloys
- High-pressure testing and protective coatings
- Fast, localized support across the Middle East

TUBE & PIPE

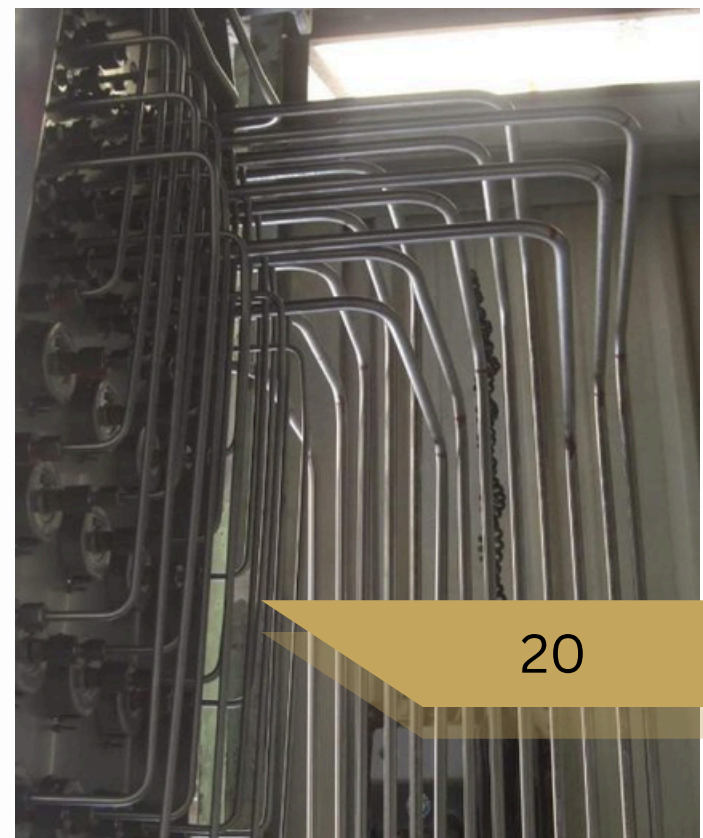

INSTALLATION AND DESIGN

We deliver expert **tube and pipe installation** services for industrial, commercial, and marine applications.

Our certified technicians ensure precise, leak-free systems tailored to your project's unique demands, from compact hydraulic units to large-scale plant installations.

Our Installation Capabilities:

- On-site welding: MIG, TIG, and arc for steel, stainless steel, and aluminum
- Custom pipe bending for complex layouts and tight spaces
- Threading: BSP, NPT, and metric for high-pressure applications
- Flaring and sealing: Leak-proof 37° or 45° flares and compression fittings
- Material versatility: Stainless steel, copper, carbon steel, and PVC

HYDRAULIC SYSTEM

ENGINEERING AND INSTALLATION

We provide **specialized hydraulic system engineering**, crafting *reliable, energy-efficient* solutions.

From concept to commissioning, our expert team delivers fully integrated systems designed for durability and peak performance.

Our Hydraulic Services Include:

- Custom system design and engineering
- Seamless installation and commissioning
- Upgrades and system modifications
- Preventive maintenance programs
- Rapid troubleshooting and repairs

A man with dark hair and a beard is seen from behind, operating a blue hydraulic scissor lift. He is wearing a blue long-sleeved shirt, blue jeans, and a high-visibility yellow and grey safety vest. The vest has the text 'GLOBETECH Hydraulic Solutions' printed on the back. He is sitting on the lift's platform, which is extended upwards. The lift is made of blue metal beams. The background is a concrete floor with yellow safety lines.
